

Table 2

No.	Criterion	Description	Significance [%]
1.	Price (including VAT)	The gross price for the performance of the contract, which should include any and all costs incurred by the Contractor	80
2.	Warranty period	1 year 2 years 3 years	0 points 4 points 8 points
3	Adjustable sampling rate	software allows to adjust the sampling rate of the measured channels separately for each of the channels	2 points
4	Visual programming language	software allows to time efficiently program customized test procedures in a visual programming language	3 points
5	Software with one database	software has one database for all the measurement channels and video sequences	3 points
6	LAN data export	software is capable of exporting the recorded data of each brake application to an external drive in the local network, immediately after the brake application ends	1 point
7	Test simulation software	software has a test dynamometer simulation, so programs can be written and tested with the simulation on another PC, without the need to block therefore the Dynamometer	3 points
TOTAL			100 points

Tender evaluation method:

 - Number of points received for the **price** criterion:

$$L_{ci} = \frac{C_{\min}}{C_i} \times W_c \times 100 \text{ points}$$

 C_{\min} – the lowest price of not rejected tenders;

 C_i – the price of the tender in question;

 W_c – criterion significance = 80%.

Prices expressed in EUR will be converted to PLN at the average exchange rate of the National Bank of Poland as at the date of opening the tenders.

If the submitted tender requires BOSMAL to pay goods and services tax, in accordance with goods and services tax regulations, with respect to an intra-community purchase of goods, BOSMAL will, for the purpose of evaluating the tender, increase the offered price by the amount of such goods and services tax payable by BOSMAL in accordance with the applicable laws and regulations.

- 5 BOSMAL will communicate the results of the tender procedure to the tendering contractors by fax or electronic mail.
